Solution

In a more and more complex business environment, the selection of the most suitable automatic manufacturing platform is becoming key.

BORSOI has turn-key line solutions for keeping your filled products on the lead. In this way you can be focused on your main business: design, produce and sell the best products for bedroom.

- BORSOI can customize all manufacturing steps as:
- Material preparation (feather, synthetic fibers and recycled products)
 - Filled product production
 - Felt and waddings production
 - Filled pillow / quilt closing and felt / waddings quilting for the mattress industry
 - Finished product packaging
 - SW production supervision and statistical data control

BORSOI is willing to be your preferred one stop shop for complete turn-key line.

BORSOI

KEEPING YOUR FILLED PRODUCTS ON THE LEAD

Furniture in our home is a key item for creating a cozy and familiar environment where we can all enjoy our time with who we cares.

Some of the key items of our home furniture are sofa, decorative pillows, kitchen pad and all the outdoor cushions.

Fashion trends and styles are quickly and continuously changing all those products so, at BORSOI, we have dedicated all our passion, knowledge and skills in order to:

- Manage all different types of filling materials and fabrics
- Fill all cushions, pillows and pads
- Grant the highest efficiency and production output
- Reduce material scraps and energy consumption
- Provide simple and low maintenance solution
- Create automatic turn-key solutions

BORSOI solutions are providing a competitive Return Of Investment (ROI) and the lowest Total Cost of Ownership (TCO) in the industry.

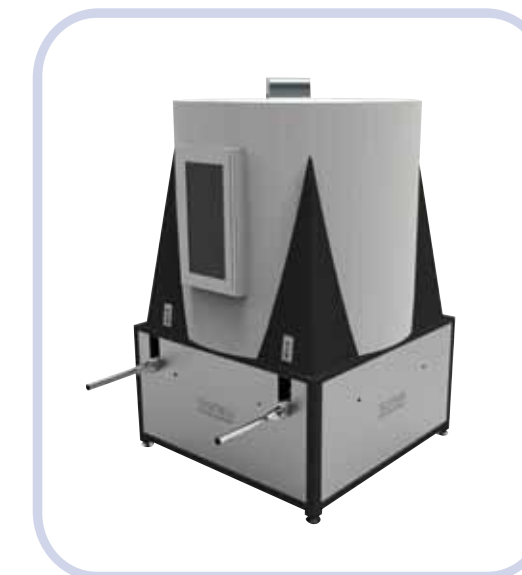

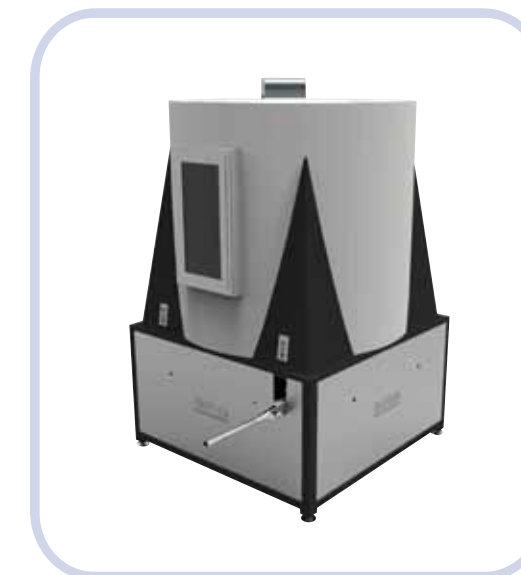

General Advantages

BORSOI ALAN PILLOW is the most complete filling equipment for manufacturing all type of cushions and pillows.

It is based on unique BORSOI pre-weighting technology where filling material is simply dosed by Gravity. BORSOI ALAN PILLOW is engineered with a modular concept, from 1 to 10 weighting modules/scales with multiple working positions.

All BORSOI ALAN PILLOW systems are featured by:

- Quick product change-over
- A two-chambers storage box for higher up-time
- Filling material is dosed by Gravity
- The best weighting accuracy
- Minimum energy consumption
- Low maintenance
- Reduced footprint
- Easy to use

ALAN PILLOW S
